GOGLOBAL ACCELERATION TESTIMONIAL

I did the Alignment Session with GoGLOBAL Mentor because I could tell from one conversation that they have a true passion for helping conscious leaders scale their businesses, and the expertise to guide them. It was the best decision I could have made.

In just one session, I got much more clear and aligned with where my wellness technology business, Blawesome is going in the next five years, and how to align my current actions with my long term goal.

Even with all the business mentoring I've received, and milestones I've reached, she was able to see where I was caught in the day to day, and helped me see the forest through the trees.

GOGLOBAL ACCELERATION TESTIMONIAL

The sessions were insightful and the network with overseas business owners and accelerator partners made the experience truly unique. New perspectives and challenged to think bigger and the possibilities of global business.

Ever since attending the programme, I've manifested breakthroughs in my business and personal life. GOGLOBAL has enriched my existing network and opened a network of strategic partners regionally, connections to India and Malaysia to explore projects and collaborations there.

I highly encourage fellow business owners to consider GOGLOBAL to accelerate going global.

Money & You Program, brought to India by SHINE, has been a path breaker for me to approach the Real World of Business around me, both Money matters and about myself wider and broader spectrum opened for me, and the blocking barricades got cleared
